

Wow! It's so nice to finally have the sound of silence from the phone and someone with nothing better to do wants to petition the FCC to take away my peace! Sorry - it's my right - if I want to be on a no call list! Can't the FCC see - soon everyone will use cell phones and the good ole telephone will be a thing of the past! Can't say I'll be sad - those telemarketing calls will be the main reason for the downfall!!!!
